

Bows & Bays

Five-Lite Bow with operating end vents

Bay Window featuring beveled, leaded glass

Garden Windows

- Dual compression seals on the operable trapezoid casements seal out weather.
- 30° roof provides excellent water drainage.
- Your choice of birch (standard) or oak (optional) head, seat and jamb.
- Garden Windows are available with an optional Du Pont Corian Seat Insert.

Specialty Windows

The Classiest Way To Dress Up Your Home

All Our Specialty Windows come with:

- Fusion-welded frame and sash that prevents air/water leakage, and adds structural integrity throughout.
- Multi-chambered frames with heavy gauge vinyl walls. Provides superior strength and increased thermal efficiency.
- Highest maintenance-free PVC vinyl that stands up to the weather for a lifetime.
- "Warm Edge" spacer technology reduces thermal conduction and condensation around glass perimeter.
- Multi-point locking system for security.
- Dual compression seal for weather protection.
- AAMA DP50 structural performance.
- Heavy duty, color matched hardware.
- 7/8" insulated glass. Options: High performance Low-E; Ultra triple-glazed; Ultimate triple-glazed; tinted and tempered glass.
- A variety of colors, woodgrains and color combinations.
- Optional grids, and decorative glass. See back.

Enhance any room with the three-dimensional effect of a Bay or Bow window.

- Choose 3 to 6 lite configurations
- Choose 10°, 15°, 30°, or 45° projections.
- Deluxe 3" thick insulated Seat Board provides a Superior R 7.5 insulating value.
- Chain support system standard on all Bays and Bows for additional strength
- Interior wood surfaces can be pre-stained and sealed in light oak, dark oak, and colonial cherry.
- Seat, head & jambs are available in laminated colors and woodgrains that are scratch resistant & waterproof
- Glass options: High Performance Low-E; Ultra triple-glazed; Ultimate triple-glazed; tinted and tempered glass.
- Optional Wood Roof, Copper Roof, or Painted Aluminum Roof

Fully welded basement hopper

Woodgrain Casement combined with awning

Our casement, awning and hopper styles provide improved security with multi-point hardware.

- Unique hinge design on casement allows you to slip your arm between the sash and frame in the open position for unbelievably easy cleaning of the outside glass.
- Fusion-welded frame and sash for strength, and multi-point locking system for security.
- Dual compression seal for weather protection.
- Heavy duty, color matched hardware.

Casement Windows

Three-Lite Casement with two operating end vents.

Two-Lite Casement Window.

Swing & Clean Slider

The Swing & Clean Slider offers all the benefits of a normal slider, along with the convenience of swing-in sashes for easy cleaning of the outside glass. Sash has positive lock feature in swing-in position.

DECORATIVE OPTIONS

The interior Woodgrain finishes are available with White or Beige exteriors.

Optional: Two-tone with a Beige or Brown exterior, and a White interior.

DECORATIVE GRIDS

All contour and standard grids are contained within the insulated glass. The grids stay dirt-free for a lifetime and the outside glass remains easy to clean.

MINI-BLIND OPTIONS IN PATIO DOORS

Thermal Glide and Bellemeade XLS Patio Doors are available with internal mini-blinds that open, close, and raise. In the fully open position, blinds are out of sight, providing a clear view through the entire glass.

Patio Doors

BELLEMEADE XLS

- White or Beige with 3 woodgrains
- High kick panel for extra beauty
- Exclusive multi-locking security mechanism. Door withstands 1200 pounds of force.
- Polished Brass PVD weather resistant hardware
- Turn Knob Cylinder with Key Lock
- Fully adjustable Brass Hinges
- Anti-lock-out hardware
- Universal sash system offers many styles: classic french, swing, center hinge, and the contemporary 2- or 3-lite slider.

THERMAL GLIDE

- Door glides on four heavy-duty brass rollers.
- Heavy duty Fiberglass sill withstands foot traffic.
- Fusion-welded metal reinforced sash eliminates drafts, increases structural integrity.
- Multi-chambered, hollow core, welded main frame provides superior strength.
- 7/8" insulated, tempered glass gives maximum energy efficiency and safety.
- Same color combinations and decorative glass options as offered with the casements, bay and bow windows.
- Brass handle and 4-point locking system optional.
